Advanced Game

If you wish to use the Advanced Game rules from *The Republic of Rome*,™ Local Taxes and Provincial Forces work in the same way for Carthage as they do for Rome.

In addition, certain wars attack Carthaginian provinces, as follows:

War	Attacks
Numidian Revolt	Numidia
Pyrrhic War	Sicily
Roman, 1 st	Sicily
Roman, 2 nd	Coastal Spain, Inland Spain, Numidia
Sicilian, 1 st	Sicily
Sicilian, 2 nd	Sicily
Sicilian, 3 rd	Sicily, Tunisia
Spanish Revolt	Coastal Spain, Inland Spain

Combined Game

The 2nd and 3rd Punic Wars start as Active in the Roman Forum, but the corresponding 2nd and 3rd Roman Wars start as Inactive in the Carthaginian Harbor. This represents mobilization and spending to prepare for war on the Roman side. The war becomes Active on Carthaginian side when either side prosecutes the war, or when matching wars or leaders appear on their board.
